• SSLC at BISHOP MOORE VIDYAPITH CBSE	2012-05-25	2013-05-23	Percentage: 84 %

Projects

- **SERVIX**

It is an online web application to hire workers online .The technologies used are HTML,CSS and PHP.This application has three module-workers,users and admin.The workers can register in this site by providing there qualifications .The user can register by providing there basic details and can select workers by location.The admin verifies the details of the workers and mark verified status.

- **Ritsoft**

This application is used by our college for academic activity purposes.It eases the work of many people like faculty, students, principal.. by making there daily jobs easier.The project aim was updating the Ritsoft.The code was unstructured.We introduced oop concept and MVC to make the code structured and make it more functional.
